	To ratify	<input type="checkbox"/>		
	To discuss	<input type="checkbox"/>		
	To note/receive	<input checked="" type="checkbox"/>		

Executive Summary
<p>The Chief Executive will provide a verbal highlight report to the Governing Body, which brings together a number of strategic issues relevant to the wider health sector which impact on the work of the CCG. This month the report will include the following matters:</p> <ul style="list-style-type: none"> • The Hampshire and Isle of Wight system response to the COVID-19 pandemic. This includes the implementation of the vaccination programme and recovery of services along with a focus on staff health and wellbeing. Note that a separate briefing is provided on the agenda for this meeting. In particular, I would like to extend our gratitude to our colleagues in primary care who have been integral to the success of the system response, including managing multiple challenges in relation to access to and resilience of services. • The announcement from NHS England and NHS Improvement in May that, following a national competitive process, Hampshire and Isle of Wight is among twelve Integrated Care Systems that will receive extra funding as part of the Accelerator Systems Programme to tackle waiting lists and further reduce waiting times for planned care patients. The investment of an additional £10m will assist with our local transformation plans. • Progress on developing the Hampshire and Isle of Wight Integrated Care System, pending the publication of guidance to develop the statutory organisation. The Queen's Speech in May 2021 set out a bill to legislate for the government's proposals in its earlier white paper on health and social care reform, due for readings in Parliament in July. • Working together with Portsmouth CCG • Hampshire Together (Modernising Our Hospital and Health Services in north and mid Hampshire) and the decision made in May with national and regional NHS colleagues to undertake more detailed planning work before taking plans out to public consultation. • The development of the Hampshire and Isle of Wight Operating Plan and the CCG's objectives and priorities for 2021/22 • Noting the completion of the shared CCG and ICS executive team and continuing with the associated transition, including finalising our organisational values.

Recommendations	The Governing Body is asked to note the Chief Executive's Report (June 2021).
